

HARRIS

BATTERY COMPANY

Harris Professional Plus Specifications

Commercial Equipment

Harris Battery understands the importance of having a reliable power source on the road and provides durable power options for your toughest applications. We provide cutting edge stored power solutions to large fleet and commercial equipment customers by partnering with some of the world's leading battery manufacturers. Utilizing our hands-on approach to identify and test batteries for commercial use has helped to distinguish Harris Battery as a leading expert in the commercial battery industry.

Our goal is to provide you:

- With reliable, powerful, heavy-duty commercial batteries

Harris AGM & Professional Plus offers:

- Maintenance free battery options that comply with environmentally sensitive areas and up to twice the life of a standard flooded battery
- Provides durable power options for the toughest applications

Meeting today's challenging industry and regulatory demands
